

# Digital Transformation in the NHS: A Personal Take

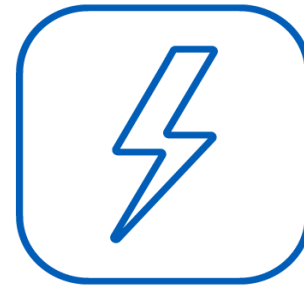

Dr Sam Shah

# Digital transformation: Our aims

...our objectives

Improve  
health  
outcomes

Increase  
efficiency

Improve  
patient  
experience

# Digital Advancements for the NHS System

**Clinical Tools**

**Interoperability**

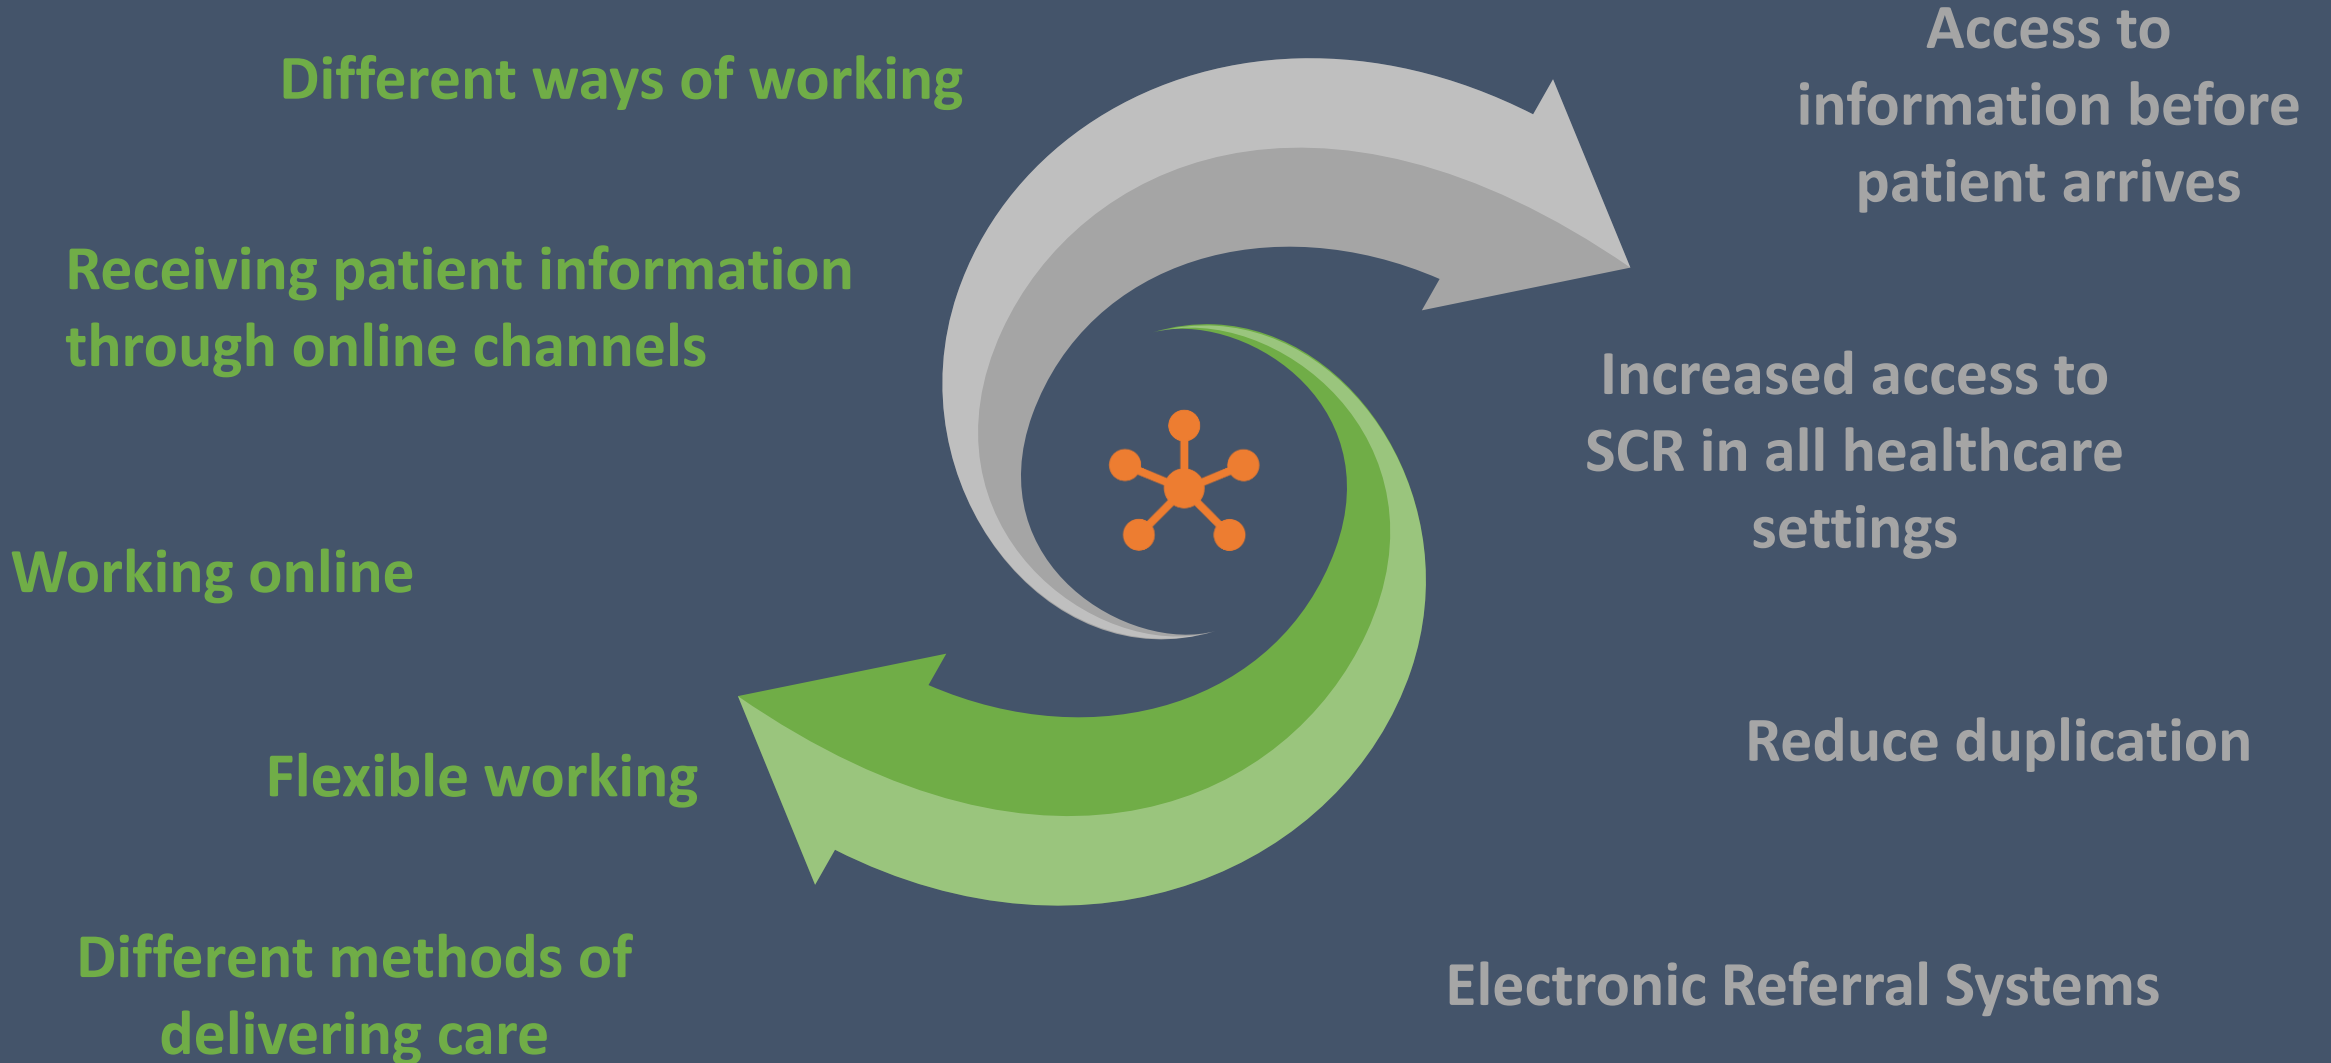

**Digital Developments  
for citizens**

# What does this mean for citizens?

# What does this mean for clinicians?

# What Does the Future Hold?

- Precision medicine
- Voiceprints
- Biometrics
- Global regulation

- Intent prediction
- Genomics
- AI for analytics
- AI for conversation
