Meet Expanse, MEDITECH’s Next Generation Platform — Along with the New MEDITECH UK
MEDITECH
We’re making a world of difference

MEDITECH International

Working with local communities and governments to improve people’s health no matter where they live, and no matter the level of IT connectivity.

From sophisticated urban hospitals in the UK and Canada to remote desert health posts in the heart of Africa, healthcare organisations around the world are using MEDITECH to coordinate care across their patient populations.

MEDITECH UK

Will have even stronger, more unified control over our strategy and vision in the UK and Ireland markets

We are fortifying our presence and amplifying our commitment to the healthcare needs of the market

Exclusively deliver Expanse
Imagine seeing healthcare through a new lens.
Imagine an open space, unfettered by technological constraints.
Imagine an EPR that kicks down the walls erected by desktop medicine.
Imagine spending less time with your EPR, and more time with patients.
Imagine an EPR designed for the new healthcare paradigm.

MEDITECH
MEDITECH Expanse is a web-based, next generation EPR designed to help organisations see healthcare through a new lens.
Expanse provides users with an open, virtual workspace, complete with cutting edge tools that help them to navigate today's healthcare paradigm with unparalleled vision and clarity.
Expanse is not only our most innovative, intuitive release to date — it’s the industry’s first full-scale EPR — reaching across the entire continuum.
Join Other Emerging Healthcare Leaders

Over 500 sites have licensed MEDITECH Expanse
Congratulations to Galway Clinic (Galway City, Ireland) on their accomplishments!

- **First hospital** to be awarded Stage 6 designation from the analytics unit of HIMSS Europe
- **First hospital** in Ireland to achieve closed-loop medication management
- LIVE with MEDITECH's 6.1 platform in May 2017
- Re-certified for Stage 6 on 6.1.
Come See Expanse at Stand #254

One EPR, no limits.
Welcome to the new vision of healthcare.
