INTRODUCTION TO THE WORK OF THE PRSB

MAY 2018
Why do we need standards?
WHO ARE THE PRSB?

The PRSB is a non-profit body working to support joined up health and care services in the UK, by developing standards for shared digital records.

OUR VISION
To optimise the health and wellbeing of UK citizens through the widespread adoption of high quality, standardised records.

OUR MISSION
To become the authoritative voice for the development and widespread use of standards that ensure all digital health and social care records are of the highest quality.

High quality records are about good patient care – we all need to be interested in that.
We work with member organisations who represent more than 750,000 frontline clinicians and care professionals as well as patients and the public.
DEVELOPING A STANDARD

1. In consultation the PRSB identify a priority area
2. PRSB puts together an expert group
3. Work collaboratively to develop a standard
4. NHS Digital creates technical messaging
5. PRSB independent assurance committee
6. Member organisations sign off and endorsement
7. Pilot and implementation
8. Keeping standards up to date – maintenance and support

✔ Literature review
✔ Workshops
✔ Online surveys (UK wide)
✔ Professional standards authoring

Better records for better care
CURRENT RECORD STANDARDS FOR CARE TRANSFERS

PUBLISHED RECORD STANDARDS

- Revised e-discharge summary
- Emergency care discharge summary
- Mental health discharge summary
- Outpatient letters
- Ambulance handover process
- Crisis care (Healthy London)
- Clinical referral information (to be published this summer)
CURRENT RECORD STANDARDS FOR INTEGRATED CARE

• **Published:**
  • Healthy child record
  • Digital care and support plan

• **To be published:**
  • Community pharmacy
  • Maternity record standard
CARE AND SUPPORT PLAN STANDARD

• The care and support plan standard will be piloted by North West London Clinical Commissioning Group this summer.

• Once implemented more widely digital care plans will support people like Matthew and his family, by ensuring that personalised information about care can be shared between different services, as well as the person and their family.

• We are looking for other trusts to pilot the standard so please contact us at info@theprsb.org if you would be interested in trialling the new standard.
PUTTING STANDARDS INTO PRACTICE – CHANGING THE CULTURE

How are we doing this?

- Engaging frontline professionals and leaders
- Supporting frontline implementation
- Aligning system levers and incentives
- Build into education and training
- Raise public awareness

How does that help?

- Promoting the changes to happen nationally and locally ‘Pull from users’
- Support providers to implement using evidence of what works from trusted peers
- Make it easier to do the right thing
- Shape how next generation will work
- Unleash people power
JOURNEY TO WIDER RECORD SHARING

- Organisational systems
- Local Data sharing HIE
- More granular data sharing
- Multi authored records
- Data repositories
- Open platforms
- Apps for clinicians and patients
